## INFORMATION TECHNOLOGY SOLUTIONS THAT WORK FOR YOUR BUSINESS

S3CC offers a number of services for your organization. Managed IT Services provides benefits, cost saving, and increased productivity to your business while being managed and secure. We also specialize in IT consulting on a wide range of IT-related issues and specialized projects that meet the needs of your organization including project management, security, and compliance for IT-related issues.

Our company specializes in the small- to medium sized business (SMB) market for outsourced information technology services and consulting. Our services include Microsoft SharePoint consulting and solutions, a full range of Managed IT Services, Backup/Disaster Recovery options and solutions, hosted solutions, such as E-Mail, computer/network security, asset management, and the promotion of Green Technology.
